Section 1: Introduction

The goal of the Uniform Medical Plan (UMP) is to provide access to quality health care at an affordable price. As part of this effort, UMP uses the *UMP Preferred Drug List* (UMP PDL) to help manage the cost of providing prescription drug coverage.

State legislation requires that UMP conform to the Washington PDL, which is based on recommendations by the Washington State Pharmacy & Therapeutics Committee (P&T Committee), an independent group of practicing health care providers that meets quarterly to help ensure that the content is medically sound and supportive of your health. The UMP PDL is based on the Washington Preferred Drug List (Washington PDL) for many drug classes. For drug classes not yet reviewed by the P&T Committee, UMP uses Express Scripts' National Formulary for the UMP PDL.

UMP retains the right to update the UMP PDL or shift medications to different tiers during the year if generic or over-the-counter alternatives become available, or if there are changes to the Washington PDL or Express Scripts' National Formulary. Please note that updates are made on a quarterly basis (January, April, July, and October) to the Washington PDL. UMP will notify you of changes made to the UMP PDL during the plan year that will increase your costs.

While this document lists most drugs and their level of coverage by UMP, some items are not listed. Unless an exception is noted in the list, all strengths and forms of a particular drug (e.g., tablets, capsules, liquid, topical, etc.) are covered as indicated. If your medication is not on this list, or you have questions, please call Customer Service at 1-866-576-3862.

Section 2: UMP's Prescription Drug Benefit Summary

Under UMP, you must pay an annual \$100 prescription drug deductible per person before UMP pays for prescription drugs. Once you have met your deductible, the amount you pay for a prescription depends on the tier level the drug falls in. Using generic and preferred drugs reduces costs both for you and for UMP. Generic drugs have the same active ingredient as their brand-name counterparts and are usually less expensive. You may still choose nonpreferred drugs but you will generally pay more if you do.

The amount you pay varies based on the following three "tiers" (categories):

Tier 1*: Generic drugs, all insulin, diabetic supplies, and preferred specialty drugs (see "Coverage for Specialty Drugs" on page 34)

Tier 2*: Preferred brand-name drugs

Tier 3: Nonpreferred brand-name drugs, nonpreferred specialty drugs and compounded prescriptions

Tier-1 and Tier-2 Enrollee cost-share Maximum:

For up to a 30-day supply, the limit is \$75. For a 31- to 60-day supply, the limit is \$150. For a 61- to 90-day supply, the limit is \$225. The maximum enrollee cost-share limit does not apply to Tier 3 drugs or drugs purchased at a non-network, foreign, internet or other mail-order pharmacy.

Minimum Mail Order Cost:

The Minimum mail order cost is \$8.99. If the actual price of the medication is less than the standard copay, you pay a minimum charge of \$8.99 or the cost of the drug, whichever is greater.

Tier	Enrollee's cost using network retail pharmacy (for up to a 90-day supply per prescription or refill)	Enrollee's cost at UMP's mail service pharmacy (for up to a 90-day supply per prescription or refill)
Tier 1	Lesser of 10% coinsurance or maximum enrollee cost-share	\$10 copay
Tier 2	Lesser of 30% coinsurance or maximum enrollee cost-share	\$40 copay
Tier 3	50% coinsurance Maximum cost-share limit does not apply	\$100 copay

Please check the UMP *Certificate of Coverage* for certain exclusions, limitations, and prior authorization requirements that may apply to some medications. The full *UMP Preferred Drug List* identifies specific drugs that have quantity level limits, prior authorization requirements or other restrictions and is available on the UMP Web site at www.ump.hca.wa.gov.

How to use this guide

This guide lists medications alphabetically. The cost-share tiers and limitations on coverage for each medication are indicated in the columns to the right of the drug name.

Legend

Tier = Cost Share Tier

TIP = Subject to Therapeutic Interchange

SPEC = Specialty Drug

PA = Requires Preauthorization,

STEP= you must use one or more "first-line" or "prerequisite" drugs before authorization is granted for a "second-line" or "step therapy" drug

COB = Covered first by Medicare Part B

The Definitions (Section 5) at the end of this booklet explains each type of coverage limitation and how it may affect your UMP prescription drug benefit.

Section 5: Definitions

Column heading	Explanation		
TIP	<p>Therapeutic Interchange Program (TIP)</p> <p>Certain drug classes are subject to the state therapeutic interchange program (TIP); medications subject to TIP have "TIP" in the "TIP" column. TIP was established by a new state law that applies only to state-operated prescription drug programs (such as UMP). If the prescriber has endorsed the state's preferred drug list, pharmacists may be required to substitute the UMP preferred drug for the nonpreferred drug when filling prescriptions for UMP enrollees. You may specifically ask the pharmacist to dispense the nonpreferred drug, but your out-of-pocket costs will be higher (Tier 3). For more information on TIP, please visit www.rx.wa.gov.</p>		
Spec	<p>Specialty Pharmacy</p> <p>Specialty medications are high-cost injectable, infused, oral, or inhaled medications that generally require close supervision and monitoring of the patient's medication therapy. Specialty medications have the following key characteristics:</p> <ul style="list-style-type: none"> • Need frequent dosage adjustments • Cause more severe side effects than traditional medications • Need special storage, handling and/or administration • Have a narrow therapeutic range • Require periodic laboratory or diagnostic testing • Cost in excess of \$1,300 per 30-day supply <p>Prescription medications that have "SPEC" in the "Spec" column are considered specialty drugs by UMP. Specialty medications will be limited to a 30-day maximum supply per prescription or refill, and you will need to order these prescriptions through CuraScript. You may get your first prescription filled at a retail pharmacy so there won't be a delay in receiving your medication, but all subsequent refills will need to be ordered through CuraScript.</p>		
QLL	<p>Drugs with Quantity Level Limitations</p> <p>Coverage for some high-risk or high-cost medications is limited to certain quantities within a given period. If there is a quantity limit for a medication, "QLL" appears in the "QLL" column. If you choose to receive these medications outside UMP's policies you are responsible for the full cost. See Section 4 for a complete list of these drugs and the specific quantity limitations.</p> <p>For some medications, Express Scripts will consider requests from prescribers for quantities in excess of the UMP limits if determined to be medically necessary. A phone number appears in the "QLL" table in Section 4 when overrides are available through Express Scripts. If no override is indicated, appeals must be sent to the UMP administrative office at:</p> <table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 50%;">Attn: Appeals Committee P.O. Box 91118 Seattle, WA 98111-9218</td> <td style="width: 50%;">Fax: (206) 521-2001 E-mail: umpappeals@hca.wa.gov</td> </tr> </table>	Attn: Appeals Committee P.O. Box 91118 Seattle, WA 98111-9218	Fax: (206) 521-2001 E-mail: umpappeals@hca.wa.gov
Attn: Appeals Committee P.O. Box 91118 Seattle, WA 98111-9218	Fax: (206) 521-2001 E-mail: umpappeals@hca.wa.gov		

Column heading	Explanation
PA	<p>Medications subject to Step Therapy or requiring prior authorization</p> <p>Some high-risk or high-cost medications are subject to step therapy or require prior authorization (PA) to be eligible for coverage. Step Therapy requires you to use one or more "first-line" or "prerequisite" drugs before authorization is granted for a "second-line" or "step therapy" drug. In order for you to receive coverage for a medication requiring prior authorization, the prescriber must call or submit a letter explaining why the specific medication is necessary. If a drug is subject to step therapy it will be indicated by STEP in the PA column. If a drug requires preauthorization, it will be indicated with a "PA1" (call 1-800-417-8164) or a "PA2" (call 1-800-762-6004) in the "PA" column.</p>
COB	<p>Medicare Coordination of Benefits</p> <p>A "COB" in this column indicates drugs that may be covered by Medicare Part B, if Medicare is your primary coverage (some drugs are covered only for certain medical conditions; see list below).</p> <p>If a drug is covered by Medicare Part B, the claim must be submitted to and paid by Medicare before UMP pays. Once Medicare has paid its share, UMP will pay secondary (often the entire amount remaining).</p> <p>Please note that prescription drugs covered by Medicare cannot be ordered through UMP's mail-service pharmacy. Such prescriptions should be filled at a network retail pharmacy, preferably one that can submit prescriptions directly to Medicare.</p> <p>If the pharmacist knows that your prescription drug is NOT covered by Medicare, he or she can call Express Scripts at 1-800-417-8164 and request preauthorization. If this is approved, in the future this drug will not have to be submitted to Medicare or preauthorized, and you can order it through UMP's mail-service if you wish.</p> <p>What Does Medicare Part B Cover?</p> <ul style="list-style-type: none"> • Immunosuppressant drugs • Certain oral anti-cancer drugs • Certain drugs used in nebulizers • Certain external infusion pumps
Suggested or Preferred Alternative	<p>Alternatives to Nonpreferred Prescription Medications</p> <p>This column indicates the UMP preferred alternative for nonpreferred prescription medications. For medications with OTC equivalents, this column will indicate the OTC product available for the enrollee to purchase at their own cost.</p>
